SAN FRANCISCO, June 27.-Stanley Moore, attorney for Patrick Calhoun, challenged Francis J. Heney to ment in personal combat at the close of court this noon. CONTINUANCE TO JULY 8TH Mayor Makes a Statement to Reporter

(TRIBUNE CORRESPONDENCE.)

SAN FRANCISCO, June 27.—The sentence of Mayor Schmitz was postponed this morning by Judge Dunne until July 8, at the request of District Attorney Langdon. Mayor Schmitz and his attorneys made a desperate fight to have sentence imposed at once, but were denied the request by the court.

Sensational charges were made by Attorneys Fairall and Metson against Judge Dunne. "This is an outrage upon justice," said Attorney Metsen. His language was so strong that Judge Dunne warned him he was nearly in contempt of court, and it was evident that he narrowly escaped the fate of Attorney Fairall, who has once been adjudged guilty and sentenced by Judge Dunne.

Mayor Schmitz Makes Statement

At the conclusion of the session, Mayor Schmitz made a strong statement to a representative of THE TRIBUNE, in which he openly accused Judge Dunne and the district attorney of having conspired to send him to the penitentiary.

"Now the people will begin to see that what I have said all along is true. The hand of the prosecution is shown more plainly. today than ever before. There has been absolutely no hope of justice for me in this court. I have been accused here today of bad faith and ny rights as a defendant have been absolutely ignored.

"As a defendant found guilty I have a right to demand a sentence after two days. The court refuses to entertain my plea. The statute makes it obligatory that a judge shall immediately set a time for hearing a bill of exception. I have today filed two bills of exception and the judge has refused to set a hearing.

"I have known all along that the court had procured a through ticket, but I did not know that the line of injustice ran so far. From now on the people of San Francisco will begin to see what this Barksdale, on convening court today the shots and found that Loving had prosecution means and how it has been conducted.".

Reasons Assigned by Prosecution

The reasons assigned by the district attorney for asking a delay, n the sentence of Mayor Schmitz was to secure more time for consideration of action upon the other indictments brought against the mayor. The request was brought out in response to a question sked by Judge Dunne.

"I want to ask you," he said, "what is your intention regarding the other indictments? If the court is to pronounce sentence in this case it would be governed somewhat by your proposed action in the other indictment."

"Your honor, we need some time to arrange our plans," replied Attorney Langdon. "There is some questions as to whether punishment in these cases would run currently or otherwise. We would ask that the judgment go over for one week."

Attorney Fairall was immediately on his feet protesting and arguing that he wanted an opportunity to present a motion for a new

SCHMITZ IN COURT.

Mayor Schmitz came into court promptly at 10 o'clock to receive his sentence. He was in the custody of Deputy Sheriff Beban Sheriff O'Neill also was present. The small courtroom occupied by Judge Dunne was crowded. Another crowd of disappointed men and women waited at the Bush street temple, having been misinformed as to the place of this session of court.

Attorney J. J. Barrett appeared with the Mayor, and both took seats directly in front of the Judge. Later they were joined by Attorneys Fairall, Metson and Drew. They were surrounded by the District Attorney and his representatives, including, beside Mr Langdon himself, Rudolph Spreckels Francis J. Heney, Hiram W. Johnson and W. C. Cobb

At 10 17 o'clock court was called to order. Judge Dunne then took up his calendar and called the case of Eugene E. Schmitz for sentence in a voice that was hardly audible. a shyster lawyer. That is a term of reproach. If anyone withdraws lan-guage here, I think Mr. Heney ought to begin."

Mr. Heney was fairly calm in beginning his explanation of the circumstances. He said that when a man like Deputy District Attorney Harrison, the son of the eminent jurist, was treated upon the witness stand as if

Mr. Moore then denied that he had insinuated or attempted to implicate Attorney Harrison in perjury or anything of that sort. He admitted that he had accused Mr. Harrison of being a partisan witness, but protested that that remark did not justify Mr. Heney's attack.

Conclusive Proof of Oakland's Commercial Growth.

J. W. Dickinson, who has charge of the local freight yards at Fich and Kirkham streets for the Southern Pacific Company, gives conclusive testimony to the solid commercial growth of Oakland. Mr. Dicklason does not handle through freight, only freight received and shipped from this city. Mr. Dickinson's yard books show that the amount of freight now shipped from Oakland to the interior is fully as large as it was during the rush days of a year ago when a sumber of the largest San Francisco wholesale houses, since gone back to their original place of business, were doing business in Onkland. This proves that the legitimate growth of the city's trade been so rapid that the loss of the heavy accession of temporary business coming from San Francisco after the fire has been fully collect. It has been popularly supposed that there had been some falling off in the wholesale and jobbing trade since the flush days immediately following the fire, but the facts show the contrary. The **enormous** expansion of retail business is accompanied by a rapid and steady growth in wholesale and jobbing trade. And the volume of water traffic makes the same favorable showing furnished by the shipment records of the local freight yards of the Southern Pacific. Oakland is constantly going ahead along sure and safe lines.

Dr. Wheeler States the Issue.

Sometimes Benjamin Ide Wheeler can state a proposition very clearly and very tersely. In an interview given out at Washington, President Wheeler summed up the Oriental issue on the Pacific Coast in this luminous statement:

"It is simply whether the people of the Pacific Coast shall become innoculated with the Oriental ideas and plans of procedure, or whether they shall remain on a truly Occidental basis. Shall or shall not the Pacific Coast States suffer the same fate as Hawaii?'

This embodies the whole case. It is not a school question; a labor question, or a question of race prejudice in the ordinary acceptation of the term. It is a question of whether Caucasian society shall be preserved on these shores. The feeling here is not one of hostility to the Japanese, but of aversion to being Orientalized. Some Eastern people appear to think it is criminal to insist that Occidental civilization shall maintain on the Pacific Coast the social, moral and religious standards which distinguish it above the civilization of the Orient. It is not race purity alone, but ethics and the basic doctrines of Christianity and constitutional law that the people of California are contending for.

The Puritanism of New England, which has degenerated from fanaticism to hypocrisy, has adopted the extraordinary theory that because an occasional Oriental may embrace Christianity and adapt bimself to the social usages and moral standards of the white races of the West, there should be no objection to the whole polluted mass of the Orient being dumped on these shores. This illogical and obtuse theory is urged with a supercilious intolerance—an incredible insolent assumption of mental and moral superiority—that is highly provoking. It is based upon cool and intrepid lying, and its chief argument is a gross insult to the intelligence, the veracity and the morality of the vast majority of people living on the Pacific Coast. Dr. Wheeler has done a service to this State by stating the issue in terms not to be misunderstood.

The Press and Mr. Heney.

If any man desires to learn what kind of news he is getting from the San Francisco papers let him compare with each other the reports the Call, Chronicle and Examiner print of the speech Francis J. Heney delivered at the Felix Adler dinner in the Fairmont hotel. Not a single paper printed the text of Heney's remarks, and each one prints a different version of what he did say. The Examiner says he "roasted" the Chronicle, the Chronicle says he denounced the San Francisco newspapers as unworthy of belief, while the Call says he accused a "San Francisco newspaper of covertly attacking him." Instead of telling the public just what Mr. Heney did say, the local press sophistocates his remarks and thus gives provocation for the contemptuous denunciation the special prosecutor in the graft cases is wont to pour out on his newspaper claque. Mr. Heney's frank contempt for the press allies who aided him so materially in his spectacular crusade may appear a trifle ungrateful, but the meekness with which it is swallowed and the justification afforded for it in such reports as were printed of the Adler banquet speech lead to the conclusion that the special prosecutor is right in following the old caption of "A Rank Outside Opinion": hunting maxim, "If you want a hound to hunt well kick him in the ribs occasionally."

Bronson Howard ought to dramatize his marital experiences. He married after a redhot courtship of one day, and there has been Times had better beware or it will be placed on the index expurgasomething lively doing ever since. His wife, who is suing him for torius and its editor placed in hoc." divorce, says he is a coward and a cad, as well as an author. Really such material ought to work up well in the hands of so gifted a man ciated in editorial sanctums, so near the seat of trouble, and that Beronson Howard.

The Failings of Good Citizenship.

At the banquet, given in the Fairmont hotel, in honor of Dr. of philanthropy different somewhat from the article he dispenses by State. THE TRIBUNE itself is no weakling in that regard, and its wait nearly an hour before she was word of mouth at public gatherings, lamented the lack of moral enthusiasm, civic courage and robust public spirit among the citizens for the editor of the Times. of San Francisco. Right Reverend Bishop Nicholls echoed the same regret. The press and the public were indicted for lacking the and brave enough to print the truth about the whole situation there essentials of good citizenship and honest patriotism, and Mr. Lincoln from a broad and honest view there would be a quicker solution of Steffens, who imbided his ideas of civic virtue by a loving study its trouble. of his father's career and his standards of political morality from the slightly malarious but sternly righteous atmosphere of Sacramento, demand the fair trial of every indicted man, according to the law we contributed his tears and eloquence to the general grief over the de- are all bound to uphold. cadence of public spirit.

But perhaps things are not so bad as has been represented. It le said that the devil is not as black as he is painted. Maybe San Francisco is not as rotten as Mr. Heney, Mr. Ruef and Mr. Gallagher would have us believe. of the other leaders were no better than bandits. Sometimes what the more ardent reformers term incivism and indifference is due to doubt and perplexity rather than a desire to condone public infamies or shirk the responsibilities of citizenship. It may be that the zeal of a leader is admired but his judgment doubted. Then, other leaders may come from baptism and remission of sins so late and with such fury and esterity as to bring in question their sincerity and good in-

"Is it Tom or the pig they want?" the spectators ask. While thus speculating they fail to join in the chase or the hue and cry, and thus lay themselves under the imputation of being cowardly and lacking in moral zeal. When the forces of reform compromise with and take into partnership a band of very dirty rogues there is also a loss of moral enthusiasm. It occasions a suspicion that the pursuit against Tom the thief may be turned against Oliver Twist, the innocent dupe.

By whose direction were the children, lunching during the noon recess, driven off the grass in Lafayette Square? What are the public squares for? Surely not exclusively for persons who can find seats on the benches. In that case, more benches should be provided.

TRUTH IS RIGHTEOUS AND FEARLESS.

Davis insisted the district was quiet and declared he was willing to stand on his statement of yesterday. He admitted, however, that he knew of some non-union men being beaten. Senator Borah wanted to know if the strike committee did not have to spend most of its time preventing union men

from going back to work, Davis said it required some work to keep the men in line for the mine owners had secret agents at work all the time and were trying to misrepresent things to the miners.

Davis said when first asked as to hether McCormick and Beck, killed at the Vindicator mine, were union or ion-union men that he did not know. Later he said hte believed they were non-union. He also believed that the men killed at the Independence depot were non-union men. He had made no to special inquiry into the matter. Davis admitted talking with F. J. Oakland's Prides dispelled some of the gloom that hung over San Francisco westorday by taking Walter McCredie's young men by the brows and slapping their scrambled brains out on Jack Gleason's baseball grounds in San Francisco. Score, 8 to 3.

Incidentally the victory was marked by the Commuters going up from third to second place, which will help some. There weren't many of the "Bugs" or "Beauts" or constant readers out to view the contest, but the few who were on hand saw 4 fair sample of baseball, at least on the part of the Oakland team.

Battler Has a Troublesome Ear and Cannot Enter Ring on the Original Date Set for Match.

Nolan proposed that the shaking of the dice with a number representing each of the five men proposed be thrown from the box and the man thus chosen be declared that the objected and gave as his reason that he did not want any gambling device to settle the referree. Britt objected and gave as his reason that he did not want any gambling device to settle the referree. It was then agreed that the referree question should be put off until July 15th.

MEN Hope for Health

If you are a sufferer from weakness, varicoccle and any special ailment, "hope for health." Don't lose your "nerve," friend. Every day we are curing cases that others have are curing cases that others have falled to cure simply because we KNOW HOW. Every day we are curing men who have been duped by self-styled specialists, who resort to circus poster, flaming, hippodrome advertisements to catch the unwary. Remember this fact, friend: "It is not the bull that better." the bull that bellows the loudest that can draw the heaviest load. This homely old adage of our honest forestathers is too true. We belleve a modest announcement of our specialty modest announcement of our specialty is proper. Anything else should be beneath the dignity of the noble medical profession. Be not east down. SURPRISE AWAITS JULIUS KRUTTSCHNITT IN OAKLAND

Harriman's Head Man Will Find Freight Shipments From This City Now as Large as Last Year.

Julius Kruttschnitt, director of maintenance and operation of the Harriman lines reaches here on his present tour of inspection he will find the local freight yards of the Southern Pacific at Fifth and Kirkham streets in fine working condition, the reail superfluous cars.

That which will undoubtedly cause Mr. Kruttschnitt more surprise than anything else, however, is the fact that the export shipments of freight from the Fifth and Kirkham streets yard are as large as they were last Said Freight Agent J. W. Dickinson

"The average freight shipments the busy times last year. It is surtheir places and new wholesalers continue to settle in Oakland.

Since the lines were cleaned around the bay last August, freight has moved regularly and on time out of here and there has been delivery on time."

Agent Dickinson further said that colving shed for freight cleared up at present Charles M. Schwab's Tonaevery night and the tracks cleared of pah road has a congestion and is unable to handle any more freight. He declined to discuss the freight con-gestion on the Sacramento division further than to say there are freight troubles on every railroad line in the

Incidentally the new plans are said to include the practical abandonment of Port Costa as a ferry point. The new line is to include a ferry from Pinole Point to South Vallejo. It is understood that one of the recommendations made by Kruttschnitt's lieutenant, Mr. Scott, who was recently here from Chicago, included the proposed changes. Now that Kruttschnitt is in California it is believed he will direct work to begin believed he will direct work to begin on the changes before he returns east-

FOR STRAIGHT LINE. Of course l'resident Harriman is behind the contemplated improvements. He spent millions in constructing a cut-off across Salt Lake and a few additional millions to take the kinks out of the much-traveled main line be-tween Oakland and Sacramento will tween Oakland and Sacramento will put that road in much more serviceable shape. Like a former Czar of Russia, when he ordered a line of railway to be constructed from St. Petersburg to Moscow and drew a line on a map direct from one city to the other as a plan for his engineers to follow, so in these later days of railway building magnates pierce mountain ranges with long tunnels, ouild solid causeways for miles through lakes, bays and inlets, bridge mountain chasms and think little of the cost as long as the results achieved make for quicker and better service.

WILL AVOID PIT.

It is the theory of the Southern Pacific engineers that they can avoid these difficulties by abandoning the marshes for the solid ground between South Vallejo and Cordelia The ferry boat Solano has been used to carry trains across Carquinez straits from Port Costa to Benicia, where the span was narrowest. The crossing from Rodeo to South Vallejo will be much longer, but it will enable the company to of the change of the change of the change of the cost as long as the results achieved make for quicker and better service.

It was necessary last winter to deflect trains down the San Joaquin valley in order to avoid the treacherous line through the marshes. At a point between Cygnus and Teal on the Benlcin-Sulsun section of the road is what is known as the bottomless pit. For several years the company has been dumping dirt into this sink, but apparently without effect, for each winter the roadbed has sink again and caused the company to abandon the route temporarily.

According to the Harriman plans, now made public, the new main line along the Alameda and Contra Costa shore will be eliminated and the transfor point at Fort Costa abandoned. "What did it cost you?" asked Phil Carey, the prosecuting attorney.

"Well, sah, it cost fo'ty cents."

"Couldn't I read what de check said?"
and by this Anderson's first alleged allbit was smashed, or at least his plea at ignorance was. ignorance was.

Later on during the trial Juror P. S.

McQuade asked the defendant to copy a word for him.

"Now, I know you cannot write, but I want you to copy the word 'pilot,'" sald the juror assuming the role of a special prosecutor.

The word was written and spelled pilat by the juror, but when the darky reproduced it he wrote in a clear hand the word 'pilot' and informed McQuade that he was a poor speller.

Anderson's game was a failure and the jury was not long in finding him guilty.

A yough draft of the proposed measure wa made last night and it is said to be sat infactory to all diffected parties.

Last night's conference was held for the purpose of hearing the protests of the builders and house movers.

EXPENSE OF FIXING WIRES. The main question upon which the discussion of the conference centered was, "who should bear the expense of cutting and replacing wires, when a work entailed by such action.

The house-movers must arrange their plans so as to cross trolley or railroad tracks between the hours of 1:30 p. m. and 5 a. m., Sundays, in order to interfere as little as possible with the rights and needs of the traveling public. cutting and replacing wires, when a house is moved across a street?"

Charles Snook, attorney for the housemovers, gave a short speech in which he said that house-moving was a recog-nized industry and that it had been carried on for the past 100 years. It was an industry, he said, which directly benefited and helped in upbuilding a city, and for that reason it should not be un-

fairly discriminated against.

He was followed by J. M. Bowen, representing the Building Trades Council, who stated that he spoke for 24,000 men affiliated with the Council; and that the object the Building Trades Council has in view is the upbuilding and beautifying of Oakland. He stated that if a prehibitory amount in damages was placed against the housemovers, it would react directly upon plasterers, bricklayers and all other artisans. terers, bricklayers and all other artisans

Why Steinway Prices Are So Low

-In all trade there is nothing priced so low as Steinway Pianos. It seems an anomalous condition that the Steinway-so immeasurably superior to all other musical instruments—can be sold at nearly the price asked for a mediocre piano; but there are several reasons for it. First, Messrs. Steinway & Sons are the chief patrons of music in America, and the price of their pianos is their warmest expression of interest in the cultivation of the Ideal Art. Second, the Steinway is the only plano sold in every part of the world this great demand makes it possible to offer to Americans an art piano at a figure many times less than it would cost if the sales-territory were only local. Third, the manufacturer's profit on the Steinway is much less on the dollar than that of any other maker. Steinway inventive genius, Steinway thoroughness, Steinway business foresight, have created this condition and made it possible for you to have for a few hundred dollars, an instrument that is the realization of every great musician's dream and the despair of every other piano-maker.
